

**“Unified Natural Products Research and Development:
Translating to Society’s Benefit”**

Posters

1	Gideon A. Legaspi	Pharmacologic Screening of Philippine Indigenous Plants for α -Glucosidase Inhibitors
2	Ma. Karla P. Barela	Evaluation of the Cytotoxicity, Antioxidant and Antimicrobial Potentials of Five Marine Invertebrates Collected off Agusan Del Norte: <i>Lobophytum baratum</i> , <i>Sarcophyton ehrenbergi</i> , <i>Isis</i> sp., <i>Demospongia</i> , <i>Lobophytum</i> sp.
3	Elena S. Catap	Antioxidant Property and Nonspecific Immunomodulatory Effects of Agoho (<i>Casuarina equisetifolia</i> L.) Leaf Extracts in Cyclophosphamide-treated Mice
4	Don Theon C. Cruz, RCh	Assessment of Binding and Disintegration Properties of Ultrasonicated Cassava (<i>Mahinot esculenta</i>) Starchin Banaba (<i>Lagerstroemia speciosa</i>) Tablets
5	Herian Marie T. Ibañez	Application of Ultrasonication in the Extraction of Sinensetin and Rosmarinic acid in Cat’s Whiskers (<i>Orthosiphon aristatus</i> Blume)
6	Danilo O Ortillo, Ph.D.	Environmental Effects on the Mineral Content of Organic Honey from Negros Occidental
7	Danilo O Ortillo, Ph.D.	Antibacterial Activity Against <i>Staphylococcus aureus</i> , Antioxidant Capacity and Phytochemical Analysis of Honey from Select Honeybee Farms in Negros Occidental
8	Juliana Janet M. Puzon, Ph.D.	Bioactive Metabolite Profiles, Antioxidant Activity and Antimicrobial Potential of <i>Muntingia calabura</i> L. Bark Ethanolic Extracts from Tarlac and Quezon City, Philippines
9	Norie A. Seduco, RCh	Evaluation of the Effect of Drying Temperatures on 6-Gingerol to 6-Shogaol Ratio in Ginger (<i>Zingiber officinale</i>) Rhizome by High Performance Thin Layer Chromatography (HPTLC)
10	Hilario S. Taberna Jr.	Extraction and Characterization of Sodium Alginate from <i>Sargassum</i> sp. and <i>Padina</i> sp. Collected from Northern Iloilo, Philippines
11	Hilario S. Taberna Jr.	Effect of Sodium Alginate Coating on Chemical and Microbiological Characteristics of Frozen Silver-Banded Whiting Fish

**“Unified Natural Products Research and Development:
Translating to Society’s Benefit”**

12	Maryjane P. Villanueva	Antioxidant Properties And Cytotoxicity Evaluation Of The Bioactive Phytochemicals From <i>Piper baccatum</i> Blume (“Climbing Pepper Of Java”)
13	Reygan H. Sangalang	Effects of Drying Process on the Physicochemical Properties and Antioxidant Activity of Kamias (<i>Averrhoa bilimbi</i>)
14	Rolly G. Fuentes, PhD	Antiproliferative and Antiplasmodial Investigation of Some Medicinal Plants from Giporlos, Eastern Samar, Philippines
15	Romulo R. Macadangdang Jr.	Anti-Angiogenic Effect of <i>Pepperomia pellucida</i> Kunth Extract Using Chorioallantoic Membrane Assay
16	Chona D. Gelani	Cytotoxicity of 3-Geranylgeranyl-4-hydroxybenzoic acid Isolated from Philippine Marine Sponge <i>Carterospongia</i> sp.
17	Aleth Therese L. Dacanay, Ph.D	Phenolic Compound from <i>Plantago major</i> L. (Plantaginaceae) Prevented Carbon tetrachloride-Induced Hepatotoxicity in Rats
18	Shalice R. Susana	Co-cultivation to enhance secondary metabolism of sponge-associated marine microorganisms
19	Viviene Santiago	The Mariculture Potential of Renieramycin-M Producing Philippine Blue Sponge, <i>Xestospongia</i> sp.
20	Kevin Bossie Davis	Secondary Metabolites from a Sponge-Associated Actinomycete
21	Jasmin Tutor	Potential Angiotensin-Converting Enzyme (ACE) Inhibitors from a Philippine Plant
22	Jeff Dela Cruz	Evaluating the Cytotoxic Activity of Ethyl Acetate VLC Fractions of the Leaf Extract of an Endemic Species of the Genus <i>Garcinia</i> Against Human Colon Carcinoma (HCT-116) Cells
23	Rachelle Dante	Fraction from the leaves of a Dilleniaceae Plant Showed Anti-Multidrug Resistance Potential in Cancer Cells <i>in vitro</i> by Inhibiting P-glycoprotein Activity
24	Thatcher Pancho	Chemistry and taxonomy-based approach for prioritization and purification of antimalarial sponge-associated microorganisms
25	Mavis Colleen P. Fabian	Potential 5-Hydroxy-3-methylglutaryl Coenzyme A (HMG-CoA) Reductase Inhibitor Isolated from an Endemic Philippine Plant

**“Unified Natural Products Research and Development:
Translating to Society’s Benefit”**

26	Rhanney L. Gonzales	Chemical Constituents of the Leaves and Fruit of <i>Antidesma ghaesembilla</i> Gaertn.
27	Jasmine U. Ting	Chemical Constituents of <i>Salacca wallichiana</i> Mart.
28	Jeanne Phyre B. Lagare	An <i>In Vitro</i> Evaluation of the Anthelmintic Activities of the Decoction and the Hexane-Soluble Extract and its Fractions of the Aerial Part of <i>Ruellia tuberosa</i> Linn.
29	Marilag T. Mateo	Secondary Metabolites and Antibacterial Efficacy of <i>Garuga floribunda</i> Decne
30	Louisa P. Pladio	Bittol (<i>Canna Indica</i> L.): Forgotten Rootcrop in the Cordilleras
31	Portia Mahal G. Sabido, PhD	Evaluation of alpha-Glucosidase Inhibitory Activity of Hydroxyproline Scan Analogues of RVPSLM
32	Hilario S. Taberna Jr.	¹ H-NMR Study of Composition and Sequence of Alginates Extracted from Brown Seaweeds Harvested at Northern Iloilo, Philippines
33	Carmina A. Ladra	In-silico screening of secondary metabolites from Guyabano (<i>Annona muricata</i>) leaves against <i>Drosophila melanogaster</i> octopamine/tyramine receptor
34	Romulo R. Macadangang Jr.	Hypoglycemic Effect of Moringa olifeira Lam. Seed Oil in Alloxan-Induced Diabetes in Albino Wistar Rats
35	Kimberly G. Garcia	Systems Biology and Data Mining Methods Using XCMS and GNPS Metabolomics Platforms of Untargeted Metabolomics Data of Mali-mali (<i>Leea aculeata</i>) using UPLC-QToF
36	Franklin V. Ibane	Cytotoxicity and α -Glucosidase Inhibitory Potentials of the Leaf Extract and Phenolic Derivatives of <i>Syzygium lineatum</i> (DC). Merr & L.M. Perry
37	Charmaine Mendoza	Isolation and Characterization of Low Molecular Weight Conopeptides from <i>Conus tessulatus</i>
38	John Paulo A. Samin	Extraction of Anthocyanin from Black Rice Bran using Response Surface Methodology and its Stability in Biologically-relevant Buffers
39	Reniel P. Tubera	Healthful Antioxidants from Pigmented Rice: Are they Safe?
40	Katherine Kyra D. Alonday, R.Ph., M. Sc.	Hepatoprotective and Antioxidant Activities of the Ethanolic Leaf Extract of <i>Phyllanthus curanii</i> C.B. Rob. in Acetaminophen-induced Liver Toxicity in Rats

**“Unified Natural Products Research and Development:
Translating to Society’s Benefit”**

41	Norsyahida Mohd Fauzi, Dr	Inhibitory Effects of <i>Gynura procumbens</i> Extract on Nitric Oxide Production and LDL Oxidation
42	Jay O. Martizano	Physico-Chemical Properties, Antibacterial and Antioxidant Activities of Essential Oil from Leaves of <i>Eucalyptus camaldulensis</i> and <i>Eucalyptus deglupta</i>
43	Ross D. Vasquez, Ph.D	Formulation of Antibacterial Facial Concealer from Leaf Extract of <i>Plantago major</i> L. (Plantaginaceae)
44	Kerwin Kien A. Dagandan	Antimutagenic Potential of <i>Moringa oleifera</i> Leaf Extracts in <i>Allium cepa</i> Root Meristem Cells
45	Angel Lyn Kristin C. Tan	Antioxidant and Anti-tyrosinase Activity of Selected Inflorescence Collected from Cebu Province
46	Queenie Marie A. Maquilang	Cytotoxicity and Antioxidant Potentials of the Secondary Metabolites of <i>Cinnamomum cebuense</i> Kostermans (Lauraceae)
